

FROM THE DIRECTOR

Celebrating the Museum's 80th anniversary as it dovetails with the City/County Sesquicentennial provides us with an ideal opportunity to launch a museum membership drive. When the Museum was chartered 80 years ago with endorsements from over 350 enthusiastic supporters, Wichita and Sedgwick County were a mere 70 years old with a population equal to a quarter of what we are today. We are using this historic information to set our goal for new membership support.

It is a tall order in an era where the idea of being a card carrying member of a museum seems a bit anachronistic and when so much else vies for our attention. However, anyone visiting the Museum quickly discovers its inestimable, long-term value, and those invested in the community realize the potential significance of their support as a member of this unique, not-for-profit association.

So we ask everyone for their essential support as members, by acquainting friends with the Museum through an admissions pass and the suggestion they join in support through membership as well. Our Goal . . . doubling our current membership of 700!

Coffee and Cocktails at the Wichita Art Museum brings together vintage furniture, designer clothes, and elegant decorative arts objects to explore the fashionable worlds of teatime and cocktail hour in the 19th and 20th centuries.

The first part of the exhibition centers on tea and coffee—two hot beverages that went from exotic imports to everyday necessities over the course of the 1800s, inspiring specialized tableware, furniture, and clothing. The second half of the exhibition takes the viewer from day to evening, and features the barware, furniture, and clothing necessary for an elegant night of drinks and conversation.

Coffee and Cocktails draws from the collections of the Wichita Art Museum and the Wichita-Sedgwick County Historical Museum to explore this fascinating moment in design history. This exhibition is on view at the Wichita Art Museum through April 26, 2020.

Plan a tax-free gift from your IRA or a 401(k) in 2019

By making a gift to the Museum counting towards your Required Minimum Distribution (RMD)

What you need to know about a Charitable Rollover:

If you own an IRA or a 401(k), the federal Required Minimum Distribution Rules (RMD) take effect at age 70 ½. When you receive a distribution, it will be taxed as ordinary income. This tax can be avoided by using your IRA or 401(k) to make a gift that supports the Historical Museum. This is known as a **Charitable Rollover** and works like this:

- Instead of taking your required distribution (RMD), you can make a qualified distribution (up to \$100,000 per person) from your retirement account directly to the Museum.
- The distribution can count towards your Required Minimum Distribution.
- There is no tax deduction, however, the amount you send directly to the Museum from your IRA or 401(k) is excluded from your income for federal tax purposes, which means you pay no income tax on this amount.

A **Charitable Rollover** enables a tax savings to you while leaving a legacy to the Museum.

MUSEUM EXHIBIT CATALOG: **TOYS OF THE FUTURE**

The Wichita-Sedgwick County Historical Museum celebrated the publication of its first exhibit catalog “Toys of the Future” with a book launch party. Museum Director Eric Cale says: “Because of the nature of our mission, it is very rare for a museum of local history to create an exhibit catalog; this is our first in 80 years. The Museum features new exhibits frequently and when they close, they’re gone forever. This catalog ensures these amazing toys will delight enthusiasts for years to come.”

The catalog captures the artifacts featured in the exhibit which closed this past January. The catalog was made possible through the generosity of celebrated photographer Larry Schwarm who worked with the Museum’s graphic designer Greg Sullivan and the exhibition’s lender, poet Albert Goldbarth to create the catalog.

The exceptionally popular exhibit featured Goldbarth’s collection of mid-20th century space themed toys from Buck Rogers to the era of Sputnik, a time before actual space travel became reality. What we know as Science Fiction, when it emerged, likely seemed far-fetched to residents of Sedgwick County Kansas. As the 20th century progressed, new technology flourished in remote areas as well as great metropolises of the United States.

In Wichita, the 1911 Walnut Grove Air Show sparked an enthusiasm for flight that in less than two decades led to the city’s leadership in the futuristic aviation industry and fame as the “Air Capital of the World.” It became apparent that the future lay out of this world, onward and upwards. For children of the area, flight became familiar and these toys accentuated that reality, expanding their vision of the future. This child’s view would be taken further as Wichita became central to the war production of airplanes and then host to Titan II missiles during the subsequent Cold War with the Space Age setting upon us.

The Catalog is available through the Museum Gift Shop.
